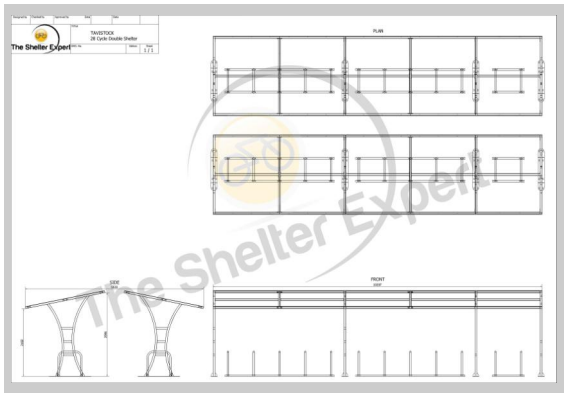
Cycle Shelters

The Tavistock Collection

Our Tavistock 28 double row cycle shelter can be supplied with either a Galvanised only finish, or a colour Powder Coat only finish or choose a combination of both finishes to achieve the best aesthetics and weather protection. The shelter is based on a modular format which allows for cycle storage capacity options from 4 cycles to hundreds of cycles if required.



Main features of the Tavistock Cycle Shelter

- Framework produced from steel strongbox section to EN 10219:2006
- Expert CPA Assured Galvanising (where applicable) is applied to the inside and outside surfaces as standard, carries a 10 year guarantee, and is a corrosion resistant zinc coating to BSEN1461
- Powder Coating (where applicable) material to BS3900, applied in house to ensure our stringent quality control standards are maintained.
- High Quality Pet-G UV2 clear sheeting.
- Cloaking (where applicable) provides an aesthetically pleasing finish to the Pet-G sheeting, and improves edge durability.

Standard Colour Chart
